

## Secure Hosting and Co-Location Services For Your Business

BusinessGUARD Hosting brings top tier secure, redundant, and fast data center hosting within your business reach

PCL Solutions **BusinessGUARD** Hosting provides your business with enterprise class datacenter hosting ensuring your technology is available when and where you need it.

Whether your company needs fail over, co-location, exchange hosting, or unique custom requirements PCL Solutions will work to deliver a solution that fits your business needs. Our geographically dispersed data centers provide the vehicle to reduce your overhead and increase reliability.

Most companies are not in the enterprise data center business as that is not what drives their business success. **BusinessGUARD** Hosting gives you access to that enterprise grade infrastructure at pricing your business can afford.

## Business**GUARD** Hosting
