

## Bring Piece of Mind With 24/7 Monitoring of Your Business Technology

BusinessGUARD Monitoring allows your organization to know that your technology is performing and working for your business

PCL Solutions **BusinessGUARD** Monitoring provides your company with the knowledge that your technology is being monitored 24/7 to alert you of potential technology challenges before they start. Our team of technology professionals will alert you of pending issues to help keep your business on track.

**BusinessGUARD** Monitoring is a monthly fixed cost program that provides real time monitoring of your technology to ensure the optimal operation of your business. By monitoring your desktops, servers, and technology infrastructure you will be fully aware of any software and hardware issues.

With **BusinessGUARD** Monitoring your business will have the monitoring it needs, but without the cost of a full time technology staff.
